This enormous timber-frame home has 6 bedrooms inside, as well as many different rooms for work and play. The main level has a great room containing the kitchen, a bright dining area, and living room with a fireplace, and connects to a wonderful sunroom as well. There are also two bedrooms on the main floor, with one currently being used as a gym, as well as a full bathroom. Upstairs, four (potential for 5!) more bedrooms with gorgeous wood-clad walls and ceilings, as well as a family room, an office area, and a full bathroom.
