

5964 Star Road Vernon British Columbia

North BX

\$899,000

This is one of those properties that just works for a lot of different lifestyles. Set on 0.30 acres in the North BX, Vernon BC, tucked into a quiet, family-friendly spot close to BX Elementary and Silver Star Mountain, this single family home with duplex addition offers flexibility that's getting harder and harder to find. The property includes a 4-bedroom main home plus a separate 2-bedroom upper unit, each fully self-contained with its own furnace, hot water tank, air conditioning, and meters. Whether you're thinking multi-generational living, a mortgage helper, or simply more space, the layout gives you options. Inside, vaulted ceilings, skylights, bay windows, hardwood flooring, and a cozy gas fireplace create bright, comfortable living spaces that feel welcoming. There's a double garage and plenty of extra parking. The roof, main home furnace, and hot water tank were replaced in 2021, and the secondary unit also features a newer furnace and hot water tank. Outside, the flat, private yard is framed by mature trees, giving you that peaceful country feel while still being close to town. (id:6769)
