

6000 BINTA FOREST SERVICE Road Burns Lake British Columbia
\$310,000

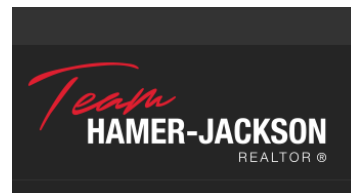

Imagine fishing, hunting, hiking, and exploring nature all on your own property! With 56.33 acres of treed land, a beautiful creek on site and approximately 3,000 feet of lake frontage on beautiful Uncha Lake, you will be able to enjoy all the seasons! Located about 20 minutes from the Southside ferry terminal, the drive to the property is on a maintained forest service road; once at the property you follow a 700m, relatively flat, gravel roadway surrounded by trees to the old homestead. Perched on the north west shoreline are two cabins and a shed. The main cabin (approximately 1200 sq. ft.) was used as a primary residence (abandoned for some time); 2nd cabin is still under construction. The extreme weather and some wild pests have definitely made their mark on the existing structures. (id:6769)
