This lower Foothills walk-out rancher with really striking lake views may just be the blank slate you have been looking for for creating your dream living space. Priced to allow you to design, update and enjoy, all the while building sweat equity as you go! This home has abundant natural light & unobstructed park, valley and lake views from the deck, patio, half of the home. A good sized deck and a lovely back yard to utilize as you wish. Three bedrooms up so you can do the majority of your living on one floor should you choose! Enjoy the adjacent park, just below the property, it is quiet & rarely used.
