

720 Turner Road Kelowna British Columbia

Lower Mission

\$2,250,000

Designed with impressive scale, this home features soaring ceilings, oversized doorways, and a bright, open-concept main living space filled with natural light. The contemporary kitchen offers modern finishes, a large island, a butler's pantry, and effortless flow onto a spacious covered deck, perfect for year-round entertaining. The backyard delivers exceptional privacy and lifestyle, complete with a sleek in-ground pool with concrete patio surround, mature landscaping, and unobstructed views toward land soon to be organic orchard. With six bedrooms, plus an office and five bathrooms, this residence provides outstanding flexibility for families of all sizes. The upper level includes four generously sized bedrooms, including one with its own ensuite, a standout primary suite with an oversized layout and true walk-in closet, and a large laundry room for added convenience. The main floor offers a dedicated office and bathroom, while the lower level features its own kitchen, laundry, bathroom, and two bedrooms, along with a multi-purpose room, making it ideal for guests, extended family, or a private living space that could easily be suited. Those who appreciate extra garage and workspace will enjoy the true double garage with an attached shop, along with abundant additional parking. Every detail reflects quality craftsmanship and thoughtful design. Positioned on a quiet street...
