

7298 18TH STREET Grand Forks British Columbia

Grand Forks

\$657,999

Exquisite, and fully restored Victorian heritage home! If you love the looks and charm of heritage houses but are fearful of taking on extensive, time consuming and potentially, very expensive renovations, this could be the perfect home for you. Built in 1900, this property has been sympathetically restored to the highest level. Highlights include Re-wired antique lights throughout, restored vintage heat registers and air returns, glass doorknobs throughout, reproduction gas fireplace, reproduction door hinges, and reproduction push button light switches. All of the woodwork, doors, and trim (mostly clear fir) have been stripped and refinished to their original beauty. In addition to these aesthetic details, functionally and structurally, the walls were stripped to the studs and are now fully insulated and, there are modern windows, new floor joists, a heat pump, furnace, and a modern roof. All of the electrical and plumbing has been updated. The exterior is completely landscaped to frame the house and enhance its beauty, with a full low emission watering system in place, five mature fruit trees, and a raised garden for veggies. There is also a full RV hookup and parking in the back (water, sewer, electric 50amp) and a 30amp outlet at front of house. A detached gas heated workshop/garage & carport is located at the rear of the property. To fully explore the house, be sure to...
