Pineview Fort Sask.

# \$524,702

~!WELCOME HOME!~ Tucked on a coveted tree-lined street... This FULLY reimagined bungalow delivers the kind of curb appeal that makes people slow down -- and the interior backs it up completely! The refreshed kitchen flows seamlessly into a warm, functional living and dining space, the living room perfect w/ tons of light and added gas fireplace!... The real showstopper is the stunning three-season sunroom addition out back. Morning coffee, evening wine, mosquito-free summers -- it does it all. Step outside and the yard separates this one from everything else in the price range: oversized heated garage, massive shop, and a covered entertaining area built for serious gatherings. Windows, roof, furnace, air conditioning, kitchen, and bathrooms -- the big-ticket items are done. Basement is complete with large Rumpus room, the 4th bedroom, and another full bathroom...
