

906 2ND Avenue Prince Rupert British Columbia

\$275,000

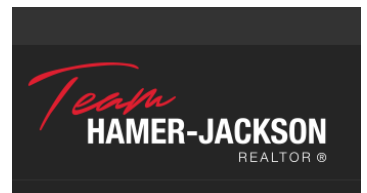

If you ask a local - "Where can I buy raingear in Prince Rupert?", the place on top of mind is "Slickers on 2nd Ave W - you can't miss it!" They garnered customer loyalty over the past 30 years with a large variety of new raingear & an environmentally friendly option to fix minor damage to existing gear. This highly visible, efficiently operated, and coveted business, with its top-of-the-line raingear inventory & equipment required to keep the door open, is up for sale and could be yours. The sale also includes the recently purchased digital sewing machine for repair work, to give your customers options and keep them coming back. This is also the location of the Purolator Depot that a Buyer can take over. Prince Rupert's port industry continues to grow & high-quality raingear is always required. This business is a going concern. (id:6769)
