

9606 80 Avenue Peace River Alberta

North End

\$235,000

This is a perfect starter home price for those either just starting to look or another option for those looking to downsize to a more manageable space. With hardwood flooring throughout the main floor except for bedrooms and bathroom, newer shingles, PVC windows, a high efficiency furnace and air conditioning - all the expensive items are taken care of and the rest is personal preference. There are 3 bedrooms on the main floor and a 4 piece bath, large laundry/mechanical area. 3 piece bathroom and a room been used as a bedroom, large office/den room and a good sized recreation area in the lower level finishes the home off . There is a large fenced yard that comes with a couple storage sheds and some other general storage containers. This is a great price for a home with all these upgrades - dont wait!! the sign is up!! Call today!! (id:6769)
