

LOT 5 STIKINE Street Kitimat British Columbia
\$159,000

Multi family zoned properties do not come up often at this size and price! This centrally located property is located just minutes walk from downtown and an elementary school, and right along a bus route. The lot is fully cleared and ready to build a multi-family building, nestled between existing 4 plex units and across the street from apartment buildings in a higher density area of town. (id:6769)
