Here is a great opportunity to purchase a building lot halfway between Creston and Kootenay Lake with the perfect amount of land providing privacy but also the security of living in the well established community of Wynndel. This property offers approximately 0.77 acres of nicely sloped land with potential for great views of the valley below and is on one of the nicest streets in the area. Nearby properties have natural gas, hydro is available and community water hook up is at the beginning of the property. A septic system will be required when you choose to build and a simple building scheme is in place. Contact us for more info today. (id:6769)
