Moncton New Brunswick

\$325,000

Gorgeous 3 bedroom, 2 bathroom century home with 2 kitchens and two reception rooms, located in the heart of Moncton. The current owners have undertaken many updates, whilst still respecting the natural beauty and history of the house. The hardwood floors are in excellent condition, a lot of the original doors and closets remain. The original kitchen was located by the back door and instead of removing this, they cleverly installed a brand new gourmet kitchen where the original dining room was. With beautiful soft close cabinetry, oversized drawers for pots and pans and natural wood butchers block countertop, they have done an exceptional job in making this house more of a home. The bathrooms have been updated also and they have installed a state-of-the-art Bosch geothermal heating system with air conditioning. The basement is completely spray foam insulated and the equalized billing is under 260 a month, which is rare for property of this size and type. This would be a fantastic family home in a convenient location. It could easily be used for an income property as well, due to the two kitchens, spacious main floor, and multiple bathrooms. Dont miss out on this gorgeous home in the city! (id:6769)
